## Summary

CS graduate specialized in Mobile App Development with Flutter, Firebase, and Supabase experience. Skilled in UI/UX, MVVM, real-time and AI-assisted features, with strong problem-solving and leadership demonstrated in internships, volunteering, and the Basma 360° capstone project.

## Professional Experience

- **Mobile App Development Intern – Ministry of Communications and Information Technology, NTI (Certificate)** Dec 2024-Feb 2025
  - Developed Flutter/Dart mobile apps with local database integration, Firebase authentication, and dynamic content using APIs.
  - **Projects:** Dice App , Quiz App ,Note App , Chat App, News App.
- **InnovEgypt Program Trainee – ITI, Egypt (Certificate)** Jan 2024-Feb 2024
  - Completed 45-hour training in innovation and entrepreneurship, mastering design thinking and business modeling while enhancing problem-solving, teamwork, and creativity skills.
  - **Projects** : (Empathy Map , Persona ,Final presentation)

## Projects

- **Graduation Project – Basma 360° (Volunteer Connect)**
  A mobile app connecting volunteers with charitable organizations using skill-based and AI-assisted matching.
  - Developed with Flutter using **MVVM architecture**, with **Supabase backend**, Firebase Authentication, and real-time chat.
  - Implemented an **AI-assisted matching system**, role-based access, volunteer profiles, opportunity posting, and verification workflows.
- **Azkari App (Islamic Azkar Desktop App) GitHub Repo**
  Azkari is a simple Windows desktop app built with Flutter. It helps users read and track their morning and evening azkar.
  - Built with **Flutter Desktop using BLoC architecture**, with **Hive local storage**, time-aware **notifications**, and **Hijri calendar** integration.
  - Includes **keyboard shortcuts**, **always-on-top mode**, dark/light theme, and a daily progress tracker; packaged for **Windows (.exe)** and **Linux (.deb / .AppImage)**.

## Volunteering Experience

- **Media Member – Cybersecurity Club, AOU** Nov 2023-Jul 2024
  Designed engaging presentations and crafted social media content to promote club activities and boost audience engagement.
- **Media Head – Cybersecurity Club, AOU** Oct 2024-Present
  Led a 20+ member media team, managing events, training, presentations, and social media content while ensuring smooth collaboration and high-quality visuals.

## Education

- **Bachelor of Science in Information Technology and Computing (Computer Science)**, **Arab Open University,** 2021 – 1/2026

## Languages

- Arabic – Native Language
- English – B1+

## Courses

- **Java Mid-level Course – AOU (Certificate)** Jan 2022-Mar 2022
  - Java fundamentals: variables, data types, loops, conditionals, arrays, functions.
- **Android App Development – AOU (Certificate)** Jan 2024-Mar 2024
  - Learned Java basics, OOP, Kotlin essentials, and applied simple UI.
- **SprintUp UI/UX Design – Sprints (Online) (Certificate)** May 2025-Jun 2025
  - Acquired UX/UI design expertise, covering research, prototyping, design systems, and core design principles.

## Technical Skills

- **Programming Languages:** Dart, Java, Python, CSS, HTML, JavaScript.
- **Mobile Development:** Flutter, Java, Kotlin, Android Studio.
- **Databases & Backend:** MySQL, Firebase, Supabase.
- **Version Control & Collaboration:** Git, GitHub.
- **Productivity Tools:** Microsoft PowerPoint (advanced)
- **Other Technical Abilities:** UI/UX design basics, reusable code structure, local storage in apps, online technical research

## Personal Skills

- Time management
- Teamwork
- problem-solving
- Presentation skills
- Fast learning
- Adaptability
- Volunteering
